

LEARNING THROUGH INNOVATION

Innovate Italy

Altera Design Contest 2012

About the Contest

Innovate Italy Design Contest is a multi-discipline engineering design contest open to all PhD, graduate and undergraduate engineering students as well as all members of the research academic community in Italy. The goal of the annual contest is to help students to cultivate their design interests of embedded processor, to improve their design technique, and to make their creativity and innovation into best practice. Altera, as the programmable logic leader, creates an environment of learning through innovation and positive competition by holding an annual multi-discipline engineering design contest. Innovate Italy Design Contest 2012 welcome the most ambitious, creative, smart PhD, and undergraduate engineering students in Italy (including the researcher community) to work together and turn all of your imagination into reality!

Eligibility

Undergraduate or Graduate engineering students from Italian Universities with sufficient background in the basics of VLSI and embedded system design are eligible. Applicants can apply as a team with a minimum of 2 and maximum of 5 PhD, graduate and undergraduate students

Design Tools

Provided by Altera

Awards

- 1st Place : Parrot AR. Drone
- 2nd Place : Table 7" Android
- 3rd Place : Kindle

Registration

Register online at www.innovateitaly.com before **October 31, 2012**
